

## AFTERMARKET WORD FOR MI 3500 / 3540 SERIES SINGLE-HUNG WINDOWS

Thank you for purchasing this aftermarket Window & Door (Devil's) or installed on MI 3500 Series Single-Hung windows. This manual includes instructions for installation and safety in operation. (Please read thoroughly before installing the Window & Door.)

Building codes should be consulted before installing a Window & Door. The manufacturer's code or local code may apply. Codes, Window & Door manuals, and the release mechanism is in operation with a 1/2" diameter rod.

When a Window & Door is installed and engaged, no force should be applied to the window or door. The manufacturer's release mechanism is in operation with a 1/2" diameter rod.

Window & Doors are designed for residential use only. They are not for use in commercial or industrial applications. They are not for use in areas where they are subject to fire, explosion, or other hazardous conditions.

## INSTALLATION INSTRUCTIONS

A&' #(!#) ' WOCD &o# MI 3500 / 3540 S #i s Si\*+l -H, \*+ Wi\*\$o-s

Follow these installation and operating instructions carefully. Failure to do so may result in the window opening control device (WOCD) being ineffective in preventing falls through an open window.
